

Toxic Waste Stand

Participants: Six Pathfinders

Equipment:

- 6 2"x 2" x 6 foot long poles
- 6 lashing cord 18 feet long

Action:

Lash the six poles together into a tripod frame using shear lashing at the top of the tripod frame and then lash the cross bars at least eight (8) inches from the base of the tripod using square lashings. When tripod is built have six pathfinders stand on the crossbars for at least 1 minute without the cross bar slipping and touching the ground.
